

Updated Information on Street Works

Road Name and Number	A320 Guildford Road and C129 Brox Road, Ottershaw		
Utility Company	Affinity Water		
Reason for Works	Following detailed investigation by Affinity Water it has been established that it is necessary to install new trunk mains water pipes to ensure continuity of fresh water supply to Woking and the surrounding areas.		
Extents of Works	The works will be along the the full length of Brox Road and on the A320 between the Otter roundabout and Anthony's, just south of McLaren's roundabout.		
Map of Work			
Highway Impact and Works Duration	<p>Phase 1a in Brox Road and Murray Road has progressed well with completion expected ahead of schedule on the 6th of May, when works will start on the A320 Guildford Road between Anthonys and Brox Road. Portable Light Signals will need to be used at various times and lane restrictions will be placed on the McLaren roundabout when works reach this point. The completion of this phase is estimated for the end of 2016.</p> <p>The details of Phase 2 of the project between the Otter roundabout and the A320 Brox Road junction are currently being reviewed with Affinity Water. Works are expected to start here early in 2017 and be in progress for the substantive part of 2017. This second phase will include works around the Otter roundabout itself.</p> <p>Significant Traffic impact with delays can be expected</p>		
Additional Information	Following further detailed analysis Affinity Water have revised the detail of the project. Whilst retaining the overall start and end points the methodology has been changed away from refurbishing two of the existing mains pipes in the ground and laying a new 450mm diameter pipe to now laying two new pipes 400mm and 600mm diameter. This is designed to enable a more efficient works process reducing the expected traffic disruption.
