

Information on Proposed Street Works			
Road Name and Number		A320 Woking Road and C129 Brox Road, Ottershaw	
Utility Company		Affinity Water	
Reason for Works	Following detailed analysis by Affinity Water it has been established that it is necessary to install a new trunk mains water pipe of 450mm (18") dia and to refurbish two existing trunk mains pipes to ensure a robust continuity of fresh water supply to Woking and the surrounding areas.		
Extents of Works	The works will be along the the full length of Brox Road and on the A320 between the Otter roundabout and Anthony's, just south of McLaren's roundabout.		
Map of Work			
Highway Impact and Works Duration	<p>Works will start on the 25th of January 2016 at the southern end of Brox Road at the junction with the A320 and continue along Brox Road to the car park area north of Murray Road. Brox Road will be closed in sections whilst the works are undertaken and it will be necessary to close Murray Road whilst pipe connections are made across the road.</p> <p>Once this section is complete, works will transfer to the main A320 from the Brox Road junction and will use temporary traffic signals. For traffic management purposes it is planned to close the Martyrs Lane junction with the A320 when the works reach the McLaren roundabout.</p> <p>The completion of the above phases is planned for late Autumn 2016.</p> <p>A second phase of the project to refurbish two existing mains pipes is proposed to start January 2017. This will again necessitate temporary traffic signals on the A320. The full duration of this project has yet to be fully detailed however it is expected to be in progress for the substantive part of 2017.</p>		
Additional Information	Significant Traffic impact with delays can be expected
